

# STONY PLAIN SUN.

VOLUME ELEVEN.

STONY PLAIN, ALBERTA, THURSDAY, OCT. 30, 1930.

Whole Number 534

## No Artificial Guarantee of Success.

Not only do the grain farmers face the competition of the world, but dairy farmers, mixed farmers and beef men are also confronted with the big volume of production now being placed on the world's markets by agriculturists in many countries.

There is now understood by many farmers to be no artificial guarantee of success offered by any organisation, says Burns' "Cream Producer."

Supply and demand will control the prices offered for any farm product, just as they control prices offered for labor, manufactured goods or other products sold in the world.

Holding grain off the market and thereby keeping prices up tends to encourage production which results in even greater supplies that will eventually crash prices to lower levels.

Undoubtedly many farmers will now turn to dairying to use some of the grain they are unable to sell. Let those who wish to be successful in this line of work remember that countless farmers in all parts of the earth may be doing the same thing, and success will only come to those who use their heads for something more than to keep their ears apart.

## Town Planning in Alberta. Article 6.

More unappealing to the eye than advertising signs may be refreshment booths sometimes erected; and gasoline stations are not always built to accommodate their customers without interference with highway traffic.

These matters are taken care of in recently promulgated Regulations and in the 2500 miles of main highways of the Province—outside of cities, towns or villages—the locations and design of filling stations, garages or refreshment booths must be approved. Nor can any new private structure be nearer the centre of these main highways than 60 feet.

The general object of the Regulations in regard to such public conveniences are not to prohibit, but to assist in co-operation with the owners in making their buildings and equipment more attractive to the public.

On any main highway the design, location and construction of any building or part thereof, which is or intended to be used as a gas filling station, garage or auto service station, or for the purpose of supplying refreshment, shall be subject to the approval of Town Planning Advisory board.

## Stony Plain and District

Mr. and Mrs. J. A. Barrie have closed their house at the Beach, and moved back to their apartments in the City.

Mr. and Mrs. Thies have returned to Stony, after a four-months' visit with friends in the Coast cities.

Mr. Muenze, from Milwaukee, made a call on Mr. Wessner on Monday.

Mr. and Mrs. Wainberg of Bashaw were Sunday visitors in Stony.

Saturday next sees the opening of the moose and deer hunting season. Several parties intend starting tomorrow on motor trips to the big game resorts, including a party led by Gus Mintz.

A party of moose hunters, consisting of Messrs C and E Fatzler, H J Macdonald and Levi Stevens, leaves today for the hunting grounds out west. The party goes up in a sedan and truck, taking a tote pony up, in the latter.

Stony Plain Moose Lodge is giving a Novelty Halloween dance tomorrow night, in Moose hall. Barths will provide the music.

A big delegation from the local Conservation Assoc'n is arranging to be present tomorrow night at the banquet in the Macdonald, in honor of Col Jamieson and A. U. G. Bury, M.P. for East Edmonton.

## Stony Plain High School

Stony Plain High School pupils were very successful with their first literary program on Friday last. Minutes of a former meeting were read and approved. The plays and readings, which were in charge of Marie Zerher, were very successful and thoroughly enjoyed by everyone.

High School pupils expect to put on these educational programs every Friday thru the term. With the aid of their famous weekly paper, they are bound to be successful.

## The Walther League Rally

Despite adverse weather conditions, a large number of young people met at St. Matthew school for the annual West Edmonton Zone Rally. From Edson and Timahawk to Edmonton and points east Walther Leaguers assembled for the special service conducted by Rev E. Eberhardt, when about 100 were present.

Entertainment, led by Mr. Rosnau, was the first item on the afternoon's program, followed by an educational program, at which the following gave addresses, Mr P. Endera, Prof. Baepfer, Rev Baetcher. Between the various numbers Walther Leaguers gave musical selections.

Lunch was served at six p.m. The evening was devoted to games, tricks, riddles and singing. In all, a most enjoyable and entertaining day was spent by the many Leaguers and friends present.

### What Does Your Work Mean To You?

In the current issue of a well known magazine there is an article, bearing the title "Do You Ever Get On the Wrong Foot?" which discusses the problems of people who at some stage in their career come to the conclusion that they are square pegs in round holes. In a word, that they do not fit; that they have made a mistake in the choice of their business occupation or professional calling; and, as a result, are not making the progress they feel they should make and their abilities entitle them to make.

On the other hand, a daily newspaper is at present running a series of short sketches of men who in their boyhood or early manhood had ambitions along certain lines, but circumstances, environment, fate, call it what you will, decided otherwise, and instead of being what in those other days they "wanted to be," they have achieved success in radically different walks of life.

In this present period of world-wide depression, a temporary period when we are for the first time feeling and suffering the real aftermath of the Great War, doubtless many people are asking themselves the question: Have I got off on the wrong foot? Am I a square peg in a round hole? Should I make a change, abandon the business, trade or profession in which I am or have been engaged and try something new and different?

Possibly at this time farmers particularly may be inclined to indulge in such questioning as they contemplate the many vicissitudes which agriculture has undergone during the past two years as a result of climatic conditions, marketing difficulties, and a selling price for their products below the actual cost of production. The present outlook may not look promising to them, any more than it does to the city wage-earner. The question, however, which both classes must consider is whether, after all, any change would be better.

For example, if the man engaged in agriculture really likes farming and a rural life, and that degree of independence resulting from the fact that he is his own boss, preferring these to the limitations of a salaried position in town or city, the paid servant of others, and breathing the air of congested centres of population, then he has not made a mistake; he is not a misfit. Nor is the city man in the wrong place if on his part the open-air life and activities of the farm and the less strenuous life of rural communities makes no appeal to him.

Possibly in both city and country, and with men in all occupations and callings in life, some part at least of their dissatisfaction with their own condition is to be found in their failure to fully grasp all the opportunities of their present vocation.

In the magazine article to which reference has already been made, the story is told of a man in middle life who, dissatisfied with his position and the progress he was making, came to the parting of the ways. An orphan, forced to make his way at the age of thirteen, he took a humble position in a food commission warehouse. In course of time he became a salesman, acquired a family and a house worth four thousand dollars, and at forty-two was working long hours every day for forty dollars a week. An opportunity presented itself to become product manager in a newly organized business at fifty dollars a week, but he was required to invest two thousand in the business. He mortgaged his house to raise the money; and took on the new job. But the business was unprofitable, and in ten months he had lost it all. He failed, with the result that this man lost his money and ruined his health by worry. He then took stock of "himself." He realized he knew a little about a whole lot of vegetables, but did not know everything there was to know about any one of them. So, on the advice of a friend, this man went back to his old job and worked two years more during which time he made close and expert study of the particular vegetable for which there was an all-year-round demand. He learned where the best varieties were grown, and by whom; refrigerating methods; packing methods; costs; who bought that particular kind of vegetable; and the best way to use it; everything. Then he launched into business in a rented dark basement dealing exclusively in that one particular vegetable. Today he heads a huge and profitable business and is worth hundreds of thousands of dollars.

The point is just this: Is the dissatisfied agriculturist farming in any old way in haphazard fashion, sowing any kind of seed, good and clean or not; using any kind of scum cattle, indifferent breeds of poultry, or other farm stock? Is the dissatisfied city artisan, or clerk, or business man, just drifting along, doing what comes to his hand, without giving much heed to the method of doing it? Is the carpenter, for instance, content to be merely a "saw and hammer" man instead of studying and striving to become efficient and an expert in his work? Is the merchant plodding along lines of least resistance but making no mental effort to study the requirements of his particular field and the needs, even the fads, of his customers?

In a word, are we treating our present occupations in life merely and solely as a means of physical existence in life, or are we finding some real pleasure and satisfaction in the work itself? If the former is our approach to our work we will, of course, be dissatisfied with it and with ourselves, and ultimate failure must result. If, on the other hand, the work itself means something to us, and we take a keen interest in it, study it and its possibilities, constantly strive for its improvement, then satisfaction will result, leading to contentment and a reasonable measure of success.

### Progressive Estevan

#### Three New Industrial Plants Operated At Recent Ceremony

The town of Estevan on September 24th opened three new industrial plants at a ceremony attended by some 300 leading business and professional men of Western Canada; and "The Mercury," in a special issue, notes the recent progress of this town of 3,000 persons, the extent of whose agricultural and mineral wealth is only beginning to be realized. Among other things, it boasts of having the only plant in Canada making stone-grey building brick and of having the largest nurseries in the Dominion.

Persian Balm is inevitably chosen by discerning women. Delightful to use. Subtly fragrant. Cooling and refreshing. Imparts a rare youthful charm to the complexion. Invaluable for softening and making hands flawlessly white. Tones and stimulates the skin. Useful for the family aches and is excellent for the father as a hair laxative and cooling shaving lotion.

**U.S.A. Manufacturers For Manitoba**  
A special publicity campaign, aiming at the establishment of American manufacturing plants in the Province of Manitoba, is to be launched by the Industrial Development Board of the province.

Mothers can easily know when their children are troubled with worms, and they lose no time in applying a reliable remedy—Mother Graves' Worm Extirminator.

### The Aeroplane and Geodesy

#### Problem Of Survey Work In Remote Districts Has Been Solved

The aeroplane has solved one of the problems of the Geodetic Survey of Canada. In those districts which are traversed by neither roads nor railways, travel is slow and at times almost impossible. Obstruction is met everywhere in measuring the points in the great triangulation net which is gradually covering the whole of the Dominion. By means of the aeroplane most of these difficulties have been set aside.

### People Need Products

#### Russia Is Selling

Soviets Take That Method To Raise Money For Treasury

Soviet dumping of wheat and other products abroad at a time when the supplies are urgently needed in Russia itself is in the nature of "tax" collection under the Russian system, says the Financial Post, which continues:

"In Soviet Russia, the word taxation has no such meaning as Western minds attach to it. Holding private ownership to be unethical, the government itself is officially the owner of all property. Consequently, there is none for it to tax. Proclaiming private profits to be opposed to human welfare, it officially permits the accumulation of no incomes which might be taxed. It is obliged, therefore, to obtain its revenue from the actual products of the mines, forests, and farms which it operates or to take as taxes the produce of those who still operate privately—mainly the unsocialized peasants. But since it cannot operate a treasury directly with wheat and lumber, it must sell these articles in the outside world. "This is what it is doing to the extent even of leaving its own people on the verge of starvation. Officially they are permitted to eat only what is distributed to them by the government, and the heavy purchases of machinery abroad mean that the people at home must be kept to the very lowest limit of supplies."

### Banish pain with Minkard's Liniment.

# Administration Of Lands And Other Resources Of The West Passes Under Provincial Control

The present year terminates the administration by the Dominion Government of the lands and other resources of the three Prairie Provinces, and of the areas in British Columbia known as the Peace River Block and the Railway Belt. These resources now pass under provincial control.

One of the notable changes involv-

ed is that the historic Dominion home stead policy now gives way to much land policies as may be framed by the several provinces concerned. For nearly sixty years the homestead system has played a cardinal role in the disposal of what have been known as "Dominion Lands," and in the advance of Canadian development. Since 1900 nearly 600,000 homestead entries have been made, and while many of

these were never completed the magnitude of this land business may be judged from the fact that the entries represent, at 160 acres each, nearly 100,000,000 acres of land.

As the accompanying diagram shows, homestead activity reached its peak in the three or four years immediately preceding the War. While the last two years have brought a decided spurt in the number of entries,

the post-war period, generally speaking, has witnessed only a moderate degree of homesteading activity. The rise and fall of homestead entries illustrates perhaps better than anywhere else the fact that in more recent times the granting of homesteads has not been the all-absorbing task for the Department of the Interior that it was fifteen or twenty years ago.

## Reassurance For Wheat Growers Of Canada

No Cause For Foreboding Says Well-Informed Bank Official

There is reassurance for Canadian wheat growers and, therefore, for the whole of Canada in the review of world market conditions given to the Toronto Mail and Empire by Mr. B. P. Alley, assistant general manager of the Canadian Bank of Commerce. As Mr. Alley has charge of the bank's business throughout western Canada, and as he must, therefore, be specially well-informed regarding the wheat export trade, his remarks upon the existing situation may be accepted as authoritative. Without presuming to speak dogmatically, he points out several influential factors in the marketing developments of recent months. One of these factors is that the high prices which prevailed for wheat not so long ago induced an over-production of that commodity throughout the world. It brought into the field countries where the cost of production is high, and which cannot profitably produce wheat for sale at normal quotations. Another thing is that in spite of prices so high that they discourage consumers, Canada last year sold more than the year's entire crop. Marketing prospects have improved in the importing countries of Europe and also in Japan and China. Nor is Russia likely soon to be so important a competitor in Liverpool or anywhere else, as some people have seemed to fear. This year's Canadian crop is considerably larger than last year's and it is of a particularly high quality. This means that other things being equal and prices being as low as they are, Canadian wheat should take the lead on all buying markets from this time forward. All things considered, therefore, there seems to be every reason for hoping that a few months hence Canada may be back on the world's main street, exporting more wheat and wheat flour than any other nation on earth. Toronto Mail and Empire.

## Canada Is Anxious For Penny Post Re-Establishment Throughout The Empire

### Winter Holiday Trips

Canada Pacific Offers Special Inducements To The Winter Traveller

Sharp stimulus to winter travel in Western Canada this year is forecasted by Canadian Pacific Railway officials in Winnipeg, chief among the contributing factors being the many special sailings to the Old Country for Christmas and New Year's. While this rail movement will be eagerly, there are also many interesting winter features in the west that annually bring thousands of easterners, Canadians and Americans, to the winter playground of the northwest.

The Banff Carnival is now known all over the civilized world, and another western winter sporting event that has become firmly fixed on the calendar is the mid-winter golf tournament, sponsored by the Canadian Pacific Hotels, at Victoria, capital City of British Columbia.

This tournament, started in 1928, enters its third year next February, when, from February 23 to 28, a host of golfers will gather in the Pacific Northwest in quest of the Beatty challenge trophy. The tournament is being held this season at the Oak Bay course of the Victoria Golf Club, where all-winter golf is one of the feature attractions of Vancouver Island's evergreen playground.

As a special inducement to winter travellers, low round trip fares have been named by the Company to Eastern Canada and Central States, commencing December 1st, and to the Pacific Coast during December, January and part of February. These tickets are considerably lower in price than the ordinary fare and bear a much longer limit.

Canada is making a bid for the re-establishment of penny-post throughout the Empire. Representatives have been submitted to the communications committee of the Imperial Conference, on behalf of Canada, it is understood, urging:

- (1) Re-establishment throughout the Empire of the penny post.
- (2) Establishment throughout the Empire of a uniform rate for air mail.
- (3) Reduced rate on parcel post throughout the Empire.

Canada already grants penny post on letters sent from Canada to all parts of the Empire, but the other Empire units have so far failed to reciprocate the action. While the letter rate from Canada to Great Britain is two cents, the rate from Britain to Canada remains at three cents.

When Canada returned to the penny post some years ago there were strong representations from British commercial interests that the British post office should follow suit. The reply was then made that in view of the financial situation of the post office, it would not be in a position to meet the estimated loss in revenue.

In regard to uniform air mail rates in the Empire and reduced parcel post rates, the Canadian representatives are understood to have expressed a willingness to co-operate with Britain and the other dominions in every way possible to stimulate the use of air mail. There, it is felt, lies a great field which Canada is rapidly developing for the faster transit of mails. It is further urged that reduction of parcel post rates within the Empire would do much to stimulate Empire buying.

### Rust Control

Fifth Of Series Of Studies In Plant Diseases

One of the most useful publications which has been published by the Federal Department of Agriculture recently is the fifth in the series of studies in plant diseases being carried out under the direction of the Dominion Botanist. This study deals with "Control methods for diseases of cereal, forage and fibre crops." It contains the latest findings of the Dominion Research Laboratories of plant pathology at Winnipeg, Saskatoon and Edmonton. The subjects dealt with include not only general rules useful in the control and eradication of cereal diseases, but specific recommendations for the treatment of a wide variety of specific cereal diseases. The crops dealt with include wheat, oats, barley, rye, corn, millet, flax, sunflowers, alfalfa, sweet clover and common clover. This circular, No. 325 New Series, is available without charge on application to the Publications Branch of the Department at Ottawa.

### Agricultural Saskatchewan

30,000,000 Acres Of Land Under Cultivation In The Province  
Recent reports show that the Province of Saskatchewan has grown from 60,000 farms in operation with 2,000,000 acres in crop when the province was organized in 1905 to 115,000 farms with 30,000,000 acres under cultivation at the present time. Also, the province is now organized along agricultural lines; the wheat pool having 50,000 members while various other farmers' organizations are operating to the benefit of the producers.

"They say she throws her money like the gutter!"  
"I suppose you don't know which gutter?" - Pages Gales, Tverdon.

## A New Yorker On Canada

Points Out Several Points Of Superiority Over U.S.

Charles Johnston, who is one of the most scholarly of New York reviewers, contributes an article to the New York Times Book Review on the Cambridge history volumes on Canada and Newfoundland. He gathers from "this admirable historical study," that the Canadian view of American affairs "has a certain definite atmosphere, which may, perhaps, be described as modest superiority. Not that there is any boasting. The points of superiority simply emerge in passing. For example we set some store by the year 1492, underlying its significance by an annual holiday. The Canadian date is 1472, when John Sculp the Dane reached Canadian territory in the region of Labrador. We commemorate the founding of Jamestown in 1607, and of the Pilgrim State in 1620. But the year 1584 marks "the birth of Canada." Again we celebrate July 4, but here also, Canada outstrips us for July 3 is the birthday of Quebec, in the year 1608. Finally the fact slips out that the area of Canada is larger, or not only that of the United States including its dependency Alaska—incidentally it may be added also greater than Brazil, the third largest country in the Western Hemisphere.

### A Labor-Saving Device

Life is getting easier and easier. The latest invention to take some of the work off a man's hands is a cigarette which doesn't need the use of a match or cigarette lighter. It is tipped with a special preparation which, when rubbed gently along the side of the package lights at once.

The oyster may be dumb in some ways, but it has sense enough to get a four months' vacation.

Absent-Minded Professor Of Tomorrow  
"There now, Adolar, you have forgotten your parachute again!" - Mummel, Hamburg.

W. N. U. 1861

## Disturbing Nature's Balance

Disastrous Results Often Follow The Introduction Of Insects Or Animals From Foreign Climates

A scientist of the Academy of Natural Sciences of Philadelphia brings from the West Indies an account of another of the many recorded instances of the unfortunate results of man's interference with the "balance of nature." Monkeys, the offspring of animals supposed to have been liberated by sailors or slave traders many years ago, and the mongoose, brought from India to cope with an excess of rats and snakes, are both said to have preyed to such an extent upon the birds and their nests that certain species of the birds have been virtually exterminated or driven to other localities.

One of the best known instances of the disastrous results of the artificial upset of the balance of nature is found in the rabbit pest in Australia and New Zealand. These animals, introduced originally for food, or for sport, have increased to such an extent that great sums have been spent in a vain effort to eradicate them. Such occurrences justify the skepticism that is always voiced when insects or animals are brought from distant climes to cope with pests. There is always the peril of creating a new and more serious pest.—New York Evening Post.

## New Machinery Needed

Development Of Flax And Hemp Making Machinery Offers Opportunity

In handling crops such as flax and hemp when so much labour is involved, the need of new machinery that will lower the cost of production can not be overemphasized, observes the Fibre Specialist of the Dominion Department of Agriculture, in his annual report. Special attention is now being given to the processing of flax and hemp at the present time, and it is expected that some way of speeding up production in scutching and retting will soon be found. The development of flax and hemp working machinery provides one of the greatest opportunities to Canadian enterprise at the present time.

### Conscience Wakes Up

It is not only evaders of income tax who sometimes become conscience stricken and make restitution after long lapses of a long period of time. At a recent meeting of the Vancouver public library board, the librarian reported that 34 books which had been stolen from the library in 1906, had recently been returned.

Gasoline is being sold in Bogota, Colombia, at 47 cents a gallon.

## Horse Class Improving

Better Standard Of Hunters and Jumpers Being Bred

Both in number and in quality the situation in Canada as regards hunting or jumping horses is improving. It was stated by Lieut-Col. Frank Moss, Toronto, secretary of the Canadian Hunter, Saddle and Light Horse Improvement Society, who spoke on the work of his organization to delegates of the Canadian Cavalry Association in annual convention at Ottawa.

Colonel Moss said the society, with the aid of government grants, was generally making progress in its aim to interest the farming communities in the breeding of hunters. Practically 50 per cent. of all hunters bred on farms were suited for cavalry work, he said.

"How long has Mosker been married?"  
"For twenty awed years."

## Number Of Farms Reduced

United States Census Bureau Records Decrease Of 2.3 Per Cent. Since 1920

A reduction in five years of 73,765 or 1.2 per cent. in the number of farms in the United States was reported by the census bureau on the basis of complete returns from the 48 states and the District of Columbia.

The farms, which, under the census bureau definition, means a tract of land used for agricultural purposes composed of more than three acres or producing crops valued at \$250 or more, totalled 6,297,877 as compared with 6,371,640 in 1925, when the last census of farms was taken.

This was a decrease of 2.3 per cent. in the number of farms since 1920, when the total was 6,448,343.

Portugal and Austria have just been connected by telephone.

## ARCHITECTURAL SCULPTOR

John Donnelly, New York, and his wife, as they arrived in Montreal on board the "Lady Rodney," from the West Indies. Mr. Donnelly is an architectural sculptor with a prominent New York firm, and will shortly arrive in Toronto, Ont., to apply his art on the exterior of the New Bank of Commerce building.—Photograph by C.R.R.

## WRIGLEYS

Promotes good health when used regularly after every meal.

It cleanses teeth and throat, sweetens mouth and breath, and strengthens the gums.

Your health is aided while your pleasure is served.

Good and Good for You

### Jap Chauffeurs Have Assistants

A. G. Williams, a New York visitor from Osaka, Japan, says that in the big Jap cities taxis have chauffeurs and assistant chauffeurs one to drive and one to watch the road, the populace swarming over the highways with no thought of danger.

## UTTERLY WORN OUT

### Women Weakened By Worry

"I don't want to worry, but I can't help it," said a woman recently when told to take things easy and not worry. It is the duty of every woman to save her strength. If she finds herself getting depressed, if she feels utterly worn out, worries over trifles and frequently has nervous headaches, she will be wise to realize her nervous system needs attention.

Starved nerves mean a breakdown. To feed the nerves you must build up the blood. To do this there is nothing to equal Dr. Williams' Pink Pills. These Pills not only enrich the blood but actually create new blood which feeds and strengthens the nerves and banishes the cause of nervous disorders.

Women cannot always rest when they should, but every woman can maintain her strength by the help of Dr. Williams' Pink Pills. Start taking these Pills now and see how soon improvement will show by increased energy, keen appetite, strong, steady nerves and robust health. These Pills are sold by medicine dealers or by mail, postpaid, at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Grows White Tomatoes

A returned soldier farmer at Chilliwack, B.C., after many years of experiment, has produced a white tomato, which is non-acidic and has been cultivated especially for its medicinal purposes.

### Before Her Baby Came

"I have used several bottles of Lydia E. Pinkham's Vegetable Compound and find it helps me wonderfully, especially before childbirth. I have five lovely children. After my last baby came I had a miserable pain in my right side so I bought another bottle of the Compound and feel fine now. I work outside during the fruit season in addition to my housework."—Mrs. Charles Slingerland, R.R. #4, St. Catharines, Ontario.

Lydia E. Pinkham's Vegetable Compound

Small text: "This is a full-size bottle of Lydia E. Pinkham's Vegetable Compound, 8¢ per bottle. Sold by all druggists and grocers."

W. N. U. 1801

## Relief Activities

Hon. Howard McConnell Reviews Relief Work In Saskatchewan Drought Areas

Details of relief activities in the dried-out areas of Saskatchewan undertaken by the Provincial Government and by the municipalities affected, with governmental aid, are given in a statement issued for publication by Hon. Howard McConnell, Provincial Treasurer and Minister of Municipal Affairs in the Saskatchewan Government. Text of the statement follows:

"In connection with relief given to farmers in the dried-out areas of our province last year, the Provincial Government distributed \$919,000. This was made up as follows:

|                                                                                                                                 |           |
|---------------------------------------------------------------------------------------------------------------------------------|-----------|
| 1.—Freight paid by province on fodder shipped to such areas                                                                     | \$450,000 |
| 2.—Relief loans built by province in such areas                                                                                 | \$350,000 |
| 3.—Relief provided by Government for fuel, food and fodder for farmers, seed grain in local improvement districts in such areas | \$119,000 |
| Total                                                                                                                           | \$919,000 |

"The rural municipalities in such areas contributed \$1,954,000 for the relief of farmers in such areas, portions of which are as follows:

|                                                                                                                            |             |
|----------------------------------------------------------------------------------------------------------------------------|-------------|
| 1.—Summs advanced by municipalities to farmers within their borders for relief purposes to purchase flour, fuel and fodder | \$1,750,000 |
| 2.—Summs advanced by municipalities to farmers resident within their borders for seed grain                                | \$204,000   |
| Total                                                                                                                      | \$1,954,000 |

"Urban municipalities received from the Government for unemployment relief, \$50,000. The Provincial Government guaranteed the repayment to the banks of all loans made by the banks to such municipalities to enable them to dispense such relief.

"This year again, the major portion of the municipalities suffering drought last year, are again experiencing adverse conditions. The position of a great many of the people residing in such areas is serious. To assist the farmers in these areas this coming fall and winter, the Government is spending approximately \$1,500,000 in relief road camps, between forty and fifty such camps having been already established. Further, to assist many municipalities, the Government is advancing this year, next year's municipal road grants. In some municipalities where the situation requires more than ordinary attention, but where road camps were not established, the Government is contributing to such municipalities an extra grant. The Government appreciates that such road camps do not completely solve the situation in these municipalities, but they do permit the residents in these areas to receive \$1,500,000 on account of such road work. These camps will be continued until freeze-up. On account of adverse conditions, the Government is not asking for any contributions from such municipalities to ward such road work.

"Further, to assist the farmers of these dried-out areas, the Government is again, this year, paying one-half of the freight on all hay and fodder shipped into these areas by the railways, the railways paying the other half of the freight. The portion of such freight chargeable to the Government this year, will approximate \$500,000.

"Requests have been made on behalf of a great many of the municipalities in the dried-out areas that the Government, with the assistance of the railways, supply coal free of all freight charges, to the residents of such dried-out areas. The Government approached the railways with a request that the railways absorb one-half of all the freight charges on Saskatchewan-mined coal shipped to the dried-out areas for relief purposes, agreeing to pay the other half of such freight. The railways, however, were unable to agree to this proposal. The Government has decided, therefore, to assume one-half of all freight charges on coal mined in Saskatchewan and shipped to the rural municipalities in the dried-out areas, on their order, for relief purposes in such rural municipalities, this policy to take effect immediately.

"The expenditure incurred and to be incurred by the Government this year for dry skin—Minard's Liniment.

For Dry Skin—Minard's Liniment.

For Dry Skin—Minard's Liniment.

For Dry Skin—Minard's Liniment.

## ISSUES STATEMENT

Hon. Howard McConnell, Provincial Treasurer and Minister of Municipal Affairs in the Saskatchewan Government.

year in granting relief to the residents of the dried-out areas, will approximate \$2,500,000. The Government is receiving from the Federal Treasury the sum of \$500,000 for relief purposes in the dried-out areas. This \$500,000, it will be seen, will only take care of small portion of the money, which the Government has spent this fall and is spending for such relief in such areas.

"The Federal Government is further assisting Saskatchewan in the matter of unemployment by a further contribution of \$1,000,000 to be used in assisting to pay for certain public works to take care of unemployment in the municipalities of this province. For every dollar that the Federal Government puts up, the Provincial Government must contribute one dollar and the municipality receiving such assistance must pay two dollars. In other words, if the contribution of \$1,000,000 from the Federal Government is spent, then the total amount that the Provincial Government must contribute will be \$1,000,000, while the municipalities must contribute \$2,000,000, thus making a total of \$4,000,000.

"This year, as last year, the Government again proposes to continue to guarantee the banks against loss for loans made by them to the municipalities in districts where, on account of crop failures or other adverse conditions, such assistance is necessary. Further details in connection with the administration of relief will be worked out in due course.

"The Government wants to emphasize that all public works proposed by municipal authorities, must be planned to provide the maximum amount of employment with the minimum expenditure of materials on such works. Any project which does not keep this in mind, cannot be entertained by the Government. It wishes to emphasize again, that the relief to be distributed is to be distributed only to those municipalities whose resources are insufficient to enable them to provide for their own unemployment. This is a fundamental principle laid down by the Federal Government and will not be departed from."

Conquers Asthma. To be relieved from the terrible suffocating due to asthma is a great thing, but to be safe-guarded for the future is even greater. Not only does Dr. J. D. Kellogg's Asthma Remedy bring prompt relief, but it introduces a new era of life for the afflicted. Systematic inhalation of smoke or fumes from the remedy prevents re-attacks and often effects a permanent cure.

Manitoba Buys Western Coal. Manitoba bought 135,000 tons of Alberta and Saskatchewan coal from June 15th to September 28th, according to F. G. Neale, secretary of the Dominion Fuel Board.

DO YOU SUFFER WITH HEADACHE?

So easy to get quick relief and prevent an attack in the future. Avoid bromides and opium. They relieve quickly but affect the heart and are very dangerous. They are depressing and only give temporary relief. The cause of the headache still remains within.

The same and harmless way. First remove the cause, then soothe the inflamed and acid stomach, relieve the intensities of the decayed and poisonous food matter, gently stimulate the liver, start the bile flowing and the bowels pass off the waste matter which causes your headache. Try Carter's Little Liver Pills. Druggists 25c red package.

## SUNDAY SCHOOL LESSON

NOVEMBER 2

Golden Text: "Now when they beheld the boldness of Peter and John, and had perceived that they were unlearned and ignorant men, they marvelled; and they took knowledge of them, that they had been with Jesus."—Act 4:13.

Lesson: Mark 8:27-29; Luke 22:31-34; John 18:25-27; 21:15-17.

Devotional Reading: Philippians 2:1-11.

### Explanations and Comments

Peter's Great Avowal, Mark 8:27-29—"Who do men say that I am?" Jesus suddenly asked His disciples when on their way to Caesarea Philippi. "John, the Baptist," they answered—no Herod the tetrarch had said, Matthew 14:2; "Mal. 4:5, 6; but others, 'One of the prophets.' "But who say ye that I am?" Jesus next questioned. "A photograph makes his sensitive plate, exposes it to just the rays of light that he chooses, dips it into the proper solution, and holds it up to the light to see if his picture is there. What else did the good Teacher do on that day but hold up these souls to the light to find out if the reflection of the Son of God was discerned there?"—J. M. Stiffer. And Peter answered for all the disciples, "Thou art the Christ."

Peter's Over-Confidence, Luke 22:31-34—"Simon, Simon," Jesus solemnly said, "behold Satan asked to sift you as wheat. And then Jesus assured Peter that He had prayed for him that his faith might not fail. 'And do thou, when once thou hast turned again (recovered from thy failure), establish (encourage) thy brethren.' "Then Jesus sadly foretold Peter's yielding to the temptation awaiting him before the crowning of the cross before the dawn of day. Peter would three times deny that he knew his

Peter's Sin, John 18:25-27—"After the arrest of Jesus, Peter followed him to the palace of the high priest and was standing in the inner courtyard before a brazier of coals warming himself when he was asked if he were not one of Jesus' disciples, and he denied that he was. One of the servants of the high priest, a kinsman of the one whose ear Peter had cut off at the garden of Gethsemane (Matthew 26:51), said to him: 'Did I not see thee in the garden with Him?' Again Peter denied, and immediately he heard the cock crow. 'In that moment Simon Peter was awakened to his real position.'—F. W. Norwood.

## MILLION FAT FOLKS CAN'T BE WRONG

And that's a low estimate of the number taking Kruschen to keep down superfluous fat.

Salts for a few days that Kruschen Salt is a real fat-buster. You don't want to be fat. You want to be slim. You want to be healthy. You want to be active. You want to be young. You want to be beautiful. You want to be successful. You want to be happy. You want to be everything. You want to be Kruschen.

One bottle is enough to prove to you that Kruschen will make you feel younger—spry—more energetic—more life—more joy—more of it. A half teaspoonful in a glass of hot water every morning is all you need to keep healthy—keep your stomach, liver, bowels and kidneys in splendid condition—free your system from harmful toxins and acids.

### Canadian Fox Export

The export of Canadian live foxes to Germany continues to increase in number. During 1929 a total of 892 valued at \$209,552 were shipped from the Dominion as compared with 876, valued at \$105,360 in the previous year.

Minard's Liniment refreshes the scalp.

The amount of natural and artificial gas produced in the world in a year would fill a dirigible a mile in diameter and 20 miles long, powerful enough to lift the Egyptian pyramids.

Many children die from the assaults of worms, and the first care of mothers should be to see that their infants are free from these pests. A vermifuge that can be depended on is Minard's Worm Powder. They will not only expel worms from the system, but act as a health-giving medicine and a remedy for many of the ailments that beset infants, enfeebling them and endangering their lives.

Cuba plans to establish its first national park, for protection of native plants and trees.

Use Minard's Liniment for Toothache.

A Scientific Lung

Through the invention of Dr. Philip Drinker, of the Harvard School of Public Health, persons who now suffer from lung trouble have a "scientific lung" available. This machine is said to be able to keep alive for weeks persons whose breathing apparatus get out of order or cease functioning altogether.

## Nervous Headaches

due to over work, are quickly dispelled by Minard's. First beat the Liniment—then inhale it for a few minutes. It has a speedy curative effect.

MINARD'S LINIMENT

"KING OF PAIN"

Licensed Taxidermists

Under the Migratory Birds Act, no person is allowed to engage in the business of taxidermist without first having secured a license to do so from the Minister of the Interior. The taxidermist must not handle any bird that has been illegally killed, and every one he must make sure returns as the Minister may require.

When BABIES are Upset

BABY ill and ailments seem twice as serious at night. A sudden cry may mean colic. Or a sudden attack of diarrhea. How would you meet this emergency—tonight? Have you a bottle of Castoria ready?

For the protection of your wee one—for your own peace of mind—keep this old, reliable preparation always on hand. But don't keep it just for emergencies; let it be an everyday aid. Its gentle influence will ease and soothe the infant who cannot sleep. Its mild regulation will help an older child whose tongue is coated because of sluggish bowels. All druggists have Castoria.

Fletcher's CASTORIA

## CANADA TO BE REPRESENTED AT CHICAGO SHOW

Chicago, Ill.—Canada is again expected to make an impressive showing in the International Grain and Hay Show, to be held at Chicago, November 29 to December 6, in connection with the International Live Stock Exposition. Already entries are being received, some from the most distant parts of the earth. Three samples of wheat have arrived from New South Wales, according to the management.

Distinction for having made the first entry in the rye and wheat classes of the exposition this year goes to a Saskatchewan grower, James A. Pair of Langham. In the rye classes of the 1929 exposition, Pair's sample ranked high.

Other successful Canadian exhibitors at the last exposition, who are expected to take part this year, were George Avery of Kelso, Sask., who had reserve championship on a two-rowed barley sample at the 1929 show; W. G. Gibson, of Ladner, B.C., and William Darnborough of Laura, Sask., who had champion and reserve champion respectively on field peas; Joseph H. B. Smith of Wolf Creek, Alberta, and S. Lacombe of Birtle, Manitoba, who ranked first and second with samples of Red Spring Wheat; Eddie J. Shank of Athabasca, Alberta, who won a blue on an early oats sample, and many other provincial exhibitors whose samples placed creditably high in the competition.

A well known Canadian, Dr. G. I. Christie, president of the Ontario Agricultural College, Guelph, Ont., and a director of the International Live Stock Exposition, is in charge of the International Grain and Hay Show. Through him Canada will be invited to send a judge of the small grain classes. The Grain and Hay Show will also have the active support of the various Canadian seed growers' associations as well as the provincial departments of agriculture.

Added incentive for Canadian farmers to participate in the 1930 International Grain and Hay Show will be generous cash prizes offered to Canadian winners by the Canadian Co-Operative Wheat Producers' Limited; the Canadian National Railways; the Canadian Pacific Railway, and the governments of Quebec, Ontario, Saskatchewan, Alberta and British Columbia. To the Albertan winning a grand championship in either wheat or oats, the Calgary Board of Trade offers a round trip railway ticket and sleeping car fare to the 1931 International Grain and Hay Show.

B. H. Heide, secretary of the International Live Stock Exposition at Chicago, says: "Growers should not be discouraged from taking part this year because of possible decreased quality of their samples owing to unfavorable growing conditions last summer, which since the situation was general to the North American continent, will, I believe be generally reflected in most of the samples submitted."

## Forming Farm Boards

Prairie Provinces Stand Ready To Help Farmers Financially

Winnipeg, Man.—All three prairie provinces stand ready to assist western farmers in their financial predicament brought on by low prices of grain and livestock. Saskatchewan has a debt-adjustment bureau in force for some time and Manitoba now has set up a parallel board to aid needy farmers and to effect fair distribution of credit and collections. The newest entry into the list is Alberta's agricultural development board, whose formation has been announced.

## Gall-Cured In Auto Accident

Birmingham, Eng.—Mrs. Amalia Gall-Cured was badly bruised and suffered a severe shaking up near here when the automobile bearing among others the famous soprano and her husband, Homer Samuels, overturned. The party were travelling to Kings Norton where the chauffeur, serving to avoid a collision, with another car, lost control.

W. N. U. 1961

## Embargo On War Munitions

President Hoover Will Not Permit Shipment Of Arms To Brazilian Rebels

Washington, D.C.—President Hoover has issued a proclamation placing an embargo on the shipment of munitions of war to Brazil except for the Federal Government at Rio de Janeiro. In taking this step, the president acted upon the request of S. Gurgel Do Amaral, Brazilian ambassador, and lined up the United States Government definitely against the rebel forces in the southern republic. Until this proclamation was issued, the Brazilian revolutionaries were free to procure arms and munitions in the United States from private manufacturers. So far as the state department is advised, however, no shipments have actually been made to the rebels.

While secretary Stimson described the Brazilian situation as optimistic, the fact that his government requested an embargo on the shipment of arms to the rebels was generally construed as indicating that the authorities at Rio de Janeiro recognized that the uprising constitutes a grave threat to the Federal Government.

## Postpone Return Flight

Capt. Errol Boyd Will Not Attempt Trip This Year

London, England.—Captain J. Errol Boyd and Lieutenant Harry P. Connor, who were planning to make a return flight across the Atlantic early next month, have definitely postponed the attempt until next spring.

The two men who flew to England from Harbor Grace, Nfld., 10 days ago, had been planning to use their monoplane "Columbia" for the first round-trip north Atlantic attempt. When the airman eventually make the return flight they will do so as owners of the "Columbia" for Sherbrooke, Cottingham, aviation enthusiasts in Montreal, has bought the veteran plane from Charles A. Levine and presented it to Boyd and Connor on condition that they do not fly the Atlantic again this year.

Boyd and Connor plan to sail for Canada, October 21, returning to England in the spring.

## Asking Six-Hour Day

Railroad Men Want Shorter Hours With Same Rate Of Pay

Cleveland, Ohio.—The seven railroad labor unions of Canada and the United States have taken the leadership of organized labor in the movement seeking a six-hour working day without reduction of pay.

Officials of the railroad unions estimated that the proposed six-hour day would put to work 50,000 men now unemployed in the railroad industries. The campaign for the shorter working day will be planned in detail at a meeting of 700 representatives of the railroad unions in Chicago, Nov. 12.

## Sir Arthur Currie To Visit British India

Chosen As Canada's Representative At Inauguration Ceremonies Of New Delhi

Ottawa, Ont.—The Dominion Government has requested General Sir Arthur Currie, commander-in-chief of the Canadian forces during the war, to represent Canada at the ceremonies in connection with the inauguration of New Delhi as the capital of British India and the opening of the new government buildings there. General Currie has accepted the invitation and will undertake the mission.

## Time Is Extended

Edmonton, Alberta.—Hon. Dr. William Egbert will be lieutenant-governor of Alberta until April 1, 1931. His Honor has received notice from Ottawa that his five-year term, which expired in October, had been extended. He was asked to continue in office owing to Premier Bennett's absence in England, and has consented to do so.

## Bank Honored Old Notes

Scarboro, Ont.—At a local banking institution a new Canadian entered to make a deposit. The customer handed to the teller a roll of bills each of defunct and merged banks, including those of the Ontario, Sterling, Farmers, Home and Merchants Bank. The notes will be honored.

## TRANS-ATLANTIC FLYER

Capt. J. Errol Boyd, Toronto flier, who, with Harry Connor, United States airman, successfully flew the Atlantic in a biplane, "Columbia," but who was forced down in Cornwall from engine trouble, just a few miles of their ultimate goal—Croydon.

## Automobile Production Down

Fewer Cars Produced In September Than Any Month In The Year

Ottawa, Ont.—Canada produced fewer automobiles in September than in any month this year, it was shown in a report published recently by the Dominion Bureau of Statistics. The total was 7,957 cars, being 19 per cent. lower than for August, and 42 per cent. lower than for September, 1929.

Likewise production figures for the first nine months of the year showed substantial reductions over 1929 totals. To the end of September, Canadian plants produced 138,622 cars, compared with 233,853 cars for the same period last year. This reduction amounts to 41 per cent.

## Customary Two Minutes Silence

People Requested To Mark Armistice Day As Usual

Ottawa, Ont.—Canada will observe the customary two-minutes of silence on the morning of Armistice Day, Tuesday, November 11. The following statement in respect to it, has been issued from the office of the Prime Minister: "In accordance with arrangements for the observance of Armistice Day, sanctioned by His Majesty the King, the people of Canada are invited to mark the occasion by a two-minutes' silence at 11 a.m. on Tuesday, November 11, 1930."

## AT IMPERIAL CONFERENCE

Photograph reproduced above shows Prime Minister Ramsay MacDonald (right), of Great Britain, and Prime Minister R. B. Bennett of Canada, as they appeared chatting outside the foreign office in London, just before the big empire conference was due to open.

## Lake Winnipeg Tragedy

Two Fishermen Drown When They Leaped From Burning Tug Boat

Winnipeg, Man.—From the blazing deck of the tug "Magnus," four fishermen leaped into the chill waters of Lake Winnipeg, near Gimli. Two were drowned, and the other pair were dragged, half-dead, from the icy water by another tug which rushed to the rescue. The "Magnus" sank after a gasoline explosion shattered the craft from stem to stern.

## Captain William Bjarnson, Engineer Joe Bell

The rescue tug "Goldfield," summoned by frenzied blasts from the ill-fated "Magnus" steved, saved Martin Johnson and Ole Kordell, surviving members of the crew. Bodies of Captain Bjarnson and Engineer Bell have not been recovered. The tiny gasoline-propelled launch-tug had caught fire below deck soon after it left Gimli on October 22, but the blaze was not discovered for some time, until it was too late to halt progress of the flames.

The "Magnus" owned by the Armstrong Gilchrist Fisheries Company, was northbound for the fishing waters at the far end of Lake Winnipeg. The tug, laden with fishing supplies for the winter, will be a total loss.

## Will Open Textile Mill

English Firms Would Bring Own Workmen To Canada

Ottawa, Ont.—Admission to Canada of a limited number of skilled textile workers is being sought by an English firm which has purchased a textile plant at Carlton Place. The mill, which has been closed for some time, will be reopened shortly and will employ 360 hands.

The company wishes to bring from its home plant about 25 people. They will work on the manufacture of woollen coatings and other cloth of a kind never before made in this country.

## Nurses Save Child's Life

Belleville, Ill.—Nurses at St. Elizabeth Hospital sitting in two-hour relays with a finger pressed tightly against an incision in the external jugular vein of Josephine Jarvis, 9, of Leokan, Ill., probably have saved the little girl's life. Flying glass from the windshield of the Jarvis car, driven by her mother, severed the vein and a branch of the facial artery, when the Jarvis car and another collided.

## Photograph Total Eclipse Of Sun

Niunafu Island.—Weeks of patient waiting and this little island in the South Pacific was rewarded Oct. 21, when 41 photographs of a total eclipse of the sun were taken successfully.

## DISCUSS QUESTION OF VITAL MOMENT TO PROVINCES

London, England.—Before the Imperial Conference committee, under Lord Sankey, Lord High Chancellor, Canada is making a stand for provincial rights. Hon. Maurice Dupre, Canadian Solicitor-General, supporting the views held by Premiers Ferguson and Taschereau, on Ontario and Quebec, respectively, holds the provinces must first be consulted before any amendments can be made to the British North America Act. The question arose in the consideration by the committee of the recommendations of the 1929 conference on operation of dominion laws.

In effect, the Canadian delegate's stand pursued to its logical conclusion would lead to an interprovincial conference or some other mode of consultation before final action on the report of the 1929 conference.

The 1929 conference, composed of legal experts from the various dominions, was a belated aftermath of the status resolutions of the 1926 Imperial Conference. The 1929 gathering studied the conflicts in Dominion legislation and British legislation and finally recommended an imperial act be passed nullifying the effect of the Colonial Laws Validity Act.

Critics of these recommendations claim they go further than mere repeal of the Colonial Validity Act; that in effect they authorize an amendment to the Canadian constitution. Premiers Ferguson and Taschereau both took the ground that as Canadian confederation was a pact between the provinces, the constitution cannot be amended without the consent of the provinces. Hon. Maurice Dupre is understood to be supporting this view in the committee deliberations.

How the provinces are to be consulted has not yet been determined. There is a belief that the principle and precedent involved in the matter are of greater importance than the actual issues at stake.

## British Airship Workers Worried

Disaster To R-101 May Mean Reduction In Staff

Cardington, England.—Eight hundred workers of the Royal Airship works here and their families are undergoing an anxious time pending decision of the future of airship development following the disaster to the R-101.

Officials of the works met secretly and the fact they also kept their conclusions, if any, to themselves, served to increase the apprehension.

It is rumored there is a proposal to cut labor down by 20 per cent. immediately and, in the circumstances, the workers are profoundly anxious to see an early commencement of the official air ministry enquiry into the R-101 disaster, delay in which is beginning to result in newspaper criticism.

## Shamrock Reaches Home

Battled With Bad Weather and Stormy Seas All the Way Across

Southampton, Eng.—Battered by terrific seas encountered on her way across the Atlantic, the "Shamrock V" arrived minus her original steering wheel which was washed away when she was 24 hours out of Bristol, Rhode Island.

Captain William Greenock, who brought the America's Cup challenger home, said that the yacht ran into bad weather practically all the way over. At times the boat was held to a standstill.

"It was no pleasure cruise," he said. "I don't think the weather could have been more unkind for we struck a bad patch just after leaving America."

The Shamrock will be taken to a shipyard for the winter. All aboard were reported well.

## Opposed To British Policy

Jerusalem, Palestine.—The National Council of Palestine Jews after a meeting which lasted eight hours, decided unanimously to reject the British statement of policy in Palestine and not to participate in the proposed legislative council.

## A Court Case of Local Interest.

The District Court in Edmonton was taken up, Monday morning, with the Stony Plain case of Sommerfield & Mayer v. Meredith Brothers. Judgment had been entered against August Meredith, but the case was carried on against Paul Meredith, who alleged that he had quit the partnership. The evidence was strong against him, but His Honor Judge Crawford granted a two-day adjournment for the production of August Meredith; otherwise judgment was to go against the defendant. Geo. J. Bryan appeared for the plaintiff; A. F. Duncan for the defendant.

## The Walther League Choir.

The first practise of the newly organised Walther League choir was held Thursday, Oct. 16, under the leadership of Mr. Barth. Quite a few were on hand for the first practise and election of officers. The election resulted: Pres., Mr. Chas. Wudel. Vice Pres., Mr. F. Wudel Sec., Miss M. L. Enders Treas., Mr. Louie Goebel Business Mgr., Mr. V. J. Kulak

## Stony Plain and District

Mrs. Gebart, a former resident, but now of Los Angeles, is here this week, with her two children.

The Royal Hotel has received the official appointment as an Association's inn, from the Alberta Automobile Assoc'n.

At the big dance at Rex-boro the other evening Mr. Hilding Larson and Miss Susan Miller secured first prize for dancing.

By an arrangement made with the Official Guardian, the mortgage sale of NE 12 and E 13, Tp 53, Rg. 1 W5, some three miles north Stony Plain, advertised to be held on Saturday last, in front of the Postoffice, was cancelled.

Miss Conroy, R. N., of the Provincial Dept. of Public Health, gave a 3 day course in the town hall, this week, on "Home Nursing and First Aid." Each session of the course was well attended.

## If the Price Improves.

Unless the price of wheat improves, the losses to the Western governments in the Wheat Pool guarantees may exceed \$10,000,000, according to Premier Bracken of Manitoba, who was in Edmonton this week, attending the inter-provincial conference of the three Prairie premiers. The governments of Manitoba, Saskatchewan and Alberta guaranteed payments by the banks to the Pool in financing the 1929 crop.

## Trains 5 and 6 Cancelled.

By a reference to our advertising columns, it will be noted that a temporary withdrawal of two train services on the Canadian National Ry. between Edmonton and Jasper, during the winter, will take place.

Effective Sunday next, Nov. 2, trains 5 and 6 will be withdrawn between Edmonton and Jasper. Trains 1 and 2 will make the same stops and flag stops along the line as formerly made by trains No. 5 and 6.

No. 5's last train westbound goes thru Stony tomorrow (Friday) at 13.28.

No. 6's last train eastbound goes thru Stony tomorrow morning at 7.01.

## Church Services.

Services in St. Philip's Church next Sunday, 11.30 a.m.  
United Church service every Sunday Evg. at 7.30.

## Spruce Grove News

The Ladies' Aid of Spruce Grove United church served a delicious chicken supper on Wednesday Evg. in the church building. This was followed by a musical program, which was appreciated by an audience which filled the church.

Mr. and Mrs. H. L. Morrow have removed to their new home at Drayton Valley; Mr. Morrow taking up the last load yesterday.

Capt. Gibson left last week for Oids, where he is said to have secured an appointment as instructor at the agricultural college.

Mr. Sam Bailey, mayor of Grumina, was a business visitor on Saturday at the Grove.

Visitors to the City who go by train will miss the Prince Rupert trains, which are to be taken off this division on Friday; but will find it a great convenience when trains 1 and 2 make daily stops here, starting on Sunday next.

Mr. Berryman, a former bartender at the Grove, is now confined to the Royal Alex hospital with a broken leg.

Mr. Jesse Jaspersen has had an electric pump installed on his premises.

Some enterprising local sports and former curlers have under consideration the plan for forming a local curling club.

Several of the local sheep men attended the sale of registered rams in Edmonton last week, and made purchases of these at prices ranging from \$25 to \$45.

Bills are hanging up here for the dance at Winterburn hall tomorrow night.

## Here and There

(627)

"The reason why interference by the government in business, or worse, the active management by the government in business, is harmful, is because it is not accompanied by efficiency, and inevitably means waste and increased taxation," was one of the outstanding statements made by E. W. Beatty, chairman and president of the Canadian Pacific Railway, in an address at the annual dinner of the Canadian Chambers of Commerce held at Toronto recently. It was, he thought, a dangerous tendency and one that should be rebuffed by Canadian and American business men.

There are at present in the Province of Quebec 32,040 miles of rural roads, of which 5,316 miles are first-class roads, 2,375 miles second-class and 15,846 third-class. Over 15,000 miles of roads in the province or about 41 per cent, are permanently improved and surfaced with either concrete, macadam or gravel.

Thoroughly representative of Canadian business across the breadth of the Dominion from Montreal to Vancouver, members of the Canadian Chamber of Commerce left the latter city October 16 on the Empress of Russia for the Chamber's official tour of Japan and China. The party includes financiers, editors, manufacturers, professional and business men of national reputation. It is the most important delegation ever to leave Canada for the Far East.

Sir Benjamin Robertson, member of the Council for India, who has just completed a seven-week tour of Canada from Atlantic to Pacific, said he had been greatly impressed both by the people and the possibilities for economic development of the Dominion. He was gratified to find throughout Canada a feeling of loyalty to the Empire which "one recognizes almost instinctively." Sir Benjamin, who came to Montreal on the Metagama, August 23, left Saint John for New York to return to England October 9.

Since the new steamer Princess Helene was put into service on the Bay of Fundy route August 27 last, there has been an increase of slightly more than 25 per cent. in the general traffic on the route between Saint John and Digby, reports issued recently by the Canadian Pacific Railway reveal.

"Lack-a-day Liza," enigmatical young person whose character is chockfull of surprises, made her first radio appearance on a recent Monday evening in the programme from "Melody Mike's Music Shop," new Canadian Pacific Railway radio feature. This programme is broadcast over the C.P.R.'s transcontinental network of Canadian stations linked together by the broadcast transmission system of the railway, including the stations in western Canada. Most tantalizing songs and choruses, including old-time favorites and popular song hits, are incorporated in the programme from Melody Mike's music emporium.

Addressing the Teachers' Convention held at Montreal recently, Mayor G. G. Gomeray, director of the department of education, Canadian Pacific Railway, adressed a wealth of data and figures to support his contention that nothing could stop the Dominion's future progress and growth.

CHAPTER 13.—Continued.

"Thank goodness, then, that you didn't discover me before!"

"It is so awful—kissing me!" asked Nick.

"It would be awful kissing you good-bye," answered his wife demurely.

"For that," he said, putting his arm about her, "you shall have another!"

"Gay," he continued with mock severity, "we're downright silly. I wouldn't have believed we could be have so. And I suppose you're right. We've sponged on Mr. Bartlett long enough. Say, let's ask the old man up to supper. It would tickle him to death."

So Simeon Bartlett was their first guest. He arrived panting, after the hard pull up the foot path that led from the wood road.

"I take this kindly, ma'am," he said, sinking down breathless on the porch, and mopping the dampness from his brow with a huge handkerchief. Although evening was approaching he carried his umbrella. Indeed, he seemed almost afraid to give it up when Gay offered to relieve him of it.

"Never travel without it, ma'am," he repeated. "Shouldn't hardly feel at home if it wasn't along. Well, well, this looks real cozy, don't it? Built this place for my old woman, ma'am, before I got so confounded fleshy. Time was when I could come up that path without battin' an eyelash, same as Nick here. A good boy, Nick. You didn't make no mistake when you picked him out."

"She didn't do the picking," laughed Nick. "I picked her, and then didn't give her time to think about it."

"Well, well," chuckled the old man, "just you take care that she don't regret it. By gorry! this ain't by any chance your honeymoon, be it?"

Gay blushed; but Nick only laughed at their guest's embarrassing interrogation.

"We hadn't been married ten minutes when you met us, Mr. Bartlett." In an instant the old man was serious.

"You ain't runnin' away from your folks, be you?" he asked soberly. "If so, it's my advice for you to go straight home and make it up."

"You needn't worry a minute about that," Nick interrupted, and Mr. Bartlett brightened perceptibly.

"That's a good thing to quarrel with yer folks," he continued, sinking back comfortably in his chair. "I wouldn't advise it ever, though they's times when families act awful pernickily. But it's no way to begin life—runnin' off an' gettin' married secret like. Tain't a good thing to remember. You got to think o' that, boy. Everything you do now—every darn mean thoughtless little act—come back to you when your work's done, and you got time to set down and think it over. Once when I want more than six year old I cheated at an egg race. 'Twas at a Sunday School picnic. I didn't hardly know I was cheatin' till afterward; but I took the prize (it was a whistle, ma'am, hung on a red silk cord), and I ain't never been able to forget it. Well, I'm glad you ain't quarreled with yer folks."

"We have none to quarrel with," said Nick.

"Not—neither of you?"

Nick shook his head. He boldly put an arm about his wife and drew her closer. "So you see," he said to Mr. Bartlett, though his eyes sought Gay's, "we seem to belong together."

"That's right," responded the old man. "That's the way to feel; and you do ever let nothin' come between you. Don't lie. If the time comes when you make a fool o' yourself, Nick, you just own up, and if yer wife loves you she'll forgive an awful lot. The good books say that the peace o' God, passeth all understandin', but I don't believe it's a mile more wonderful than the love o' woman. What a woman! I put up with—well, I'll say this, now—you're a good boy, but you prob'ly ain't one third good enough for her."

"I fear I'm not," agreed Nick readily; but Gay laughed, and asked if her husband was to get all the good advice.

Simeon Bartlett chuckled.

"I don't aim to advise a lady," he said gallantly, "but if I was urged I'd say don't let him too close to yer apron, strings, ma'am. Give him plenty o' rope to run on; and don't mind when he notices a pretty face. It's agin natur for a young feller like Nick not to see 'em, and it's a darn sight safer if he ain't afraid to mention 'em to his wife. Just so you're sure he loves you, you ain't got a thing to worry about. Jealousy, ma'am, has made more unappetizing than strong drink; though I ain't on speakin' acquaintance with either, you might say, always bein' sure o' my old woman, and signin' the pledge at twelve year old. Do I smell chowder, ma'am?"

"That sounds," laughed Gay, "like a gentle hint for supper. Shall we have it here on the porch?"

"That would suit me fine, ma'am. Me and my old woman used to eat here summer evenin's. Sometimes the hermit thrushes would sing for us. We called 'em our orchestra; and a darn sight prettier music it was then what comes out o' the brass band over to Mrs. Falk's."

"Well, agree on that," said Nick. "They sang the night we came here. I told Gay it was a bridal chorus sung specially for us."

"And I don't delude it was, sonny," said the old man gently. "You run along now and help yer misus dish up supper. You don't need to make company o' me; and I ain't one that believes a man's place is on the front porch while his wife's eatin' with the kitchen staff on the dish pan."

"Nor am I," said Nick, rising to obey. "You can ask Gay if I'm not a champion dish-washer."

It was a festive little supper, and Simeon Bartlett pronounced his hostess a "first class cook," a tribute that brought the happy color into Gay's cheeks, and a proud light to her husband's eyes. Later, when the world was dimmed in moonlight, they escorted Mr. Bartlett home.

"I've had a real good time," he said in parting. "Don't know as I've enjoyed anything so much since my old woman went away. Stay as long as ever you're a mind to, but not a minute longer. I know how 'tis. Once I had that longin' to see new things myself; but it's long years now since home seemed the best place of all. Gorry! if it wasn't for all the things I've got to remember, I'd a' most envy you, startin' out with the whole o' life before you. Goodnight, youngsters; and don't you go forgettin' the good advice I give you."

He chuckled, but Nick said soberly: "I shan't forget, sir."

"Nor shall I," Gay promised. She laid a gentle hand on the old man's. "If I don't make Nick happy it won't be because I forgot your warnings, and—I thank you."

"You're a good girl," he answered, patting her hand before releasing it. "You've given a lonely old man a happy evening."

"What a dear he is," said Gay, as they rode away. She felt suddenly reluctant to leave this kind old friend, standing alone before a house that showed no welcoming lights.

Nick looked at her tenderly.

"You're something of a dear yourself, Gay. I could see that you took old Simeon's heart by storm. Poor old chap! His wife's been dead for years, but he always speaks as if she had just left him. I'm glad we thought to have him up for supper."

"It was you who thought of it," said Gay. "You think of everybody."

She moved closer, to rest her cheek against his. "Nick,"

"Well! Nick questioned, as no words seemed forthcoming.

"I've been wondering."

"Wondering what?" He looked at her anxiously. "It seems to be difficult to say."

"It is, Nick—I think you're wonderful!"

"Is that all?" Nick queried, with a slow smile.

"No. There's a problem been troubling me all evening. I can't face it alone, and—"

"Of course you can't—you've got me to face it with you! But, my dear girl, I thought it was to escape such things as problems that we came

away. Anyhow, we won't face it till we're back at camp. I'm going to take the long way round. It's a glorious night to ride."

It was so glorious that they forgot the flight of time. It was late when they reached the cabin, but despite the hour they sat down together on the porch, and Nick reached for his wife's hand, twisting the slender wedding ring around her finger.

"You've guessed this was my mother's, haven't you? She told me to keep it till I found the one girl in the world. I used to think I'd never use it—or not for years and years. No settling down for me! I was to be a vagabond, you know—traverse the earth—conquer the world! Oh, Gay, what a kid I was, even a week ago!"

She stirred uneasily.

"And aren't you now?"

"My dear, how can I be a kid? I'm a married man!"

He was laughing; but Gay said soberly: "But—but I like having you a kid, Nick. You're only twenty-one. It's—that."

"Oh!" said Nick. "I see. I'd forgotten the problem. Put it out, young lady, and we'll go to it; though you've no moral right to produce the abominable thing on a quest for freedom."

(To Be Continued).

## KEEPING BABY LOVELY AND WELL

Some babies thrive from the hour of their birth while others make so little progress as to be the cause of much anxiety. As a rule it is the direction that is at fault with these backward ones and they start to go ahead directly Baby's Own Tablets are made the corrective of their stomach and bowel troubles.

Baby's Own Tablets are specially designed for the use of babies and little children. They are absolutely safe and the mother can feel perfectly secure in giving them to even the most delicate child. They are a mild but thorough laxative which banish constipation and indigestion; break up colds and simple fevers and allay the pains which accompany the cutting of teeth. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Active Prospecting Year

Valuable Mineral Discoveries Reported in Northern Alberta

The adjournment of prospecting operations in Northern Alberta this season will bring to a close one of the most active prospecting years in the history of the province. Five major companies have carried on intensive exploration work with the use of airplanes and at considerable cost. Valuable mineral discoveries are reported to have been made and much valuable data secured.

**New Industry in Palestine**

Palestine is becoming important as an orange-producing country, the fruit grown there being said to have a specially fine flavor and appearance. Jews in Palestine have invented over twenty cillion dollars in orange groves and new ones are being set out all the time. And so the future of Palestine brightens.

Don't keep Douglas' Egyptian Liniment. Without it always handy. Relieves toothache, neuralgia, sore throat, guinea, and croup, inflammation for burns, sores, Barber's itch, and Ringworm.

**Will Visit Winnipeg**

The United States Junior Chamber of Commerce National Convention to be held in Des Moines, Iowa, in June, 1931, is to organize a post convention tour to Winnipeg, led by the national president, Dunward Howes of Los Angeles.

## WHEN PAIN COMES...

Two hours after eating

WHAT many call "indigestion" is very often nothing but excess acid in the stomach. The stomach nerves have been over-stimulated, and food poisons. The corrective is an alkali, which neutralizes acids instantly. The best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard anti-acid with physicians in the 50 years since its invention.

One spoonful of this harmless, tasteless alkali will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this when once you learn the efficiency of this.

Be sure to get genuine Phillips' Milk of Magnesia prescribed by physicians for more than 50 years in correcting excess acid. See a bottle, any drugstore. Complete directions for its many uses are enclosed with every bottle.

The Genuine Milk of Magnesia is always a liquid—never a tablet. Look for the Phillips' name on the bottle.

**PHILLIPS' MILK OF MAGNESIA**

## SAFE For NEURALGIA

Prompt relief from HEADACHES, LUMBAGO, COLDS, SORE THROAT, RHEUMATISM, NEURITIS, NEURALGIA, ACHES and PAINS

DOES NOT HARM THE HEART

**ASPIRIN**

Accept only "Aspirin" package which contains proven directions. Handy "Aspirin" boxes of 12 tablets. Also bottles of 54 and 100—All drugstores.

## Schemes to Help Farmers.

Two schemes for the assistance of Alberta farmers in the way of railway freight privileges are now in effect. Feed supplies are already being moved to needy areas on a three party arrangement between Provincial and Federal Gov'ts and railways, each to bear one third the cost. Farmers thus have the advantage of a free freight service in respect to the exchange of feed or live stock between areas that may be short of one or the other.

## Open Seasons for Game

Following are open seasons for game—  
Ducks and Geese—Sept 16 to Dec 14th.  
Hungarian Partridge—Oct 1 to Nov. 14.  
Prairie Chicken—Oct. 1-15.  
Pheasant—No open season.  
Deer—Nov 1 to Dec 14  
Otter, Nov. 1 to May 1.  
Beaver, No Open Season.  
Muskrat—Between North Sask. River and Tp. 91, March 15 to April 30

## Charles Henry Milton.

You are hereby notified that pursuant to the Order of His Honor Judge Dubuc, your property namely the S.E. 22-51 5-w-5th may be sold by Public Auction at the expiration of three months from the date of this Notice, if the amount now standing against the said land, amounting to the sum of \$402.09, is not paid by the said date.

Dated at Stony Plain, Alberta, this 24th day of October A.D. 1930.

GEORGE J. BLYAN, Solicitor for Hazel A. Lundy, Ex-ecutrix of the Estate of F. W. Lundy, deceased.

## Notice to Creditors and Claimants.

IN THE ESTATE OF EDWARD HOFFMAN, late of Stony Plain, Alberta, Farmer, deceased.

NOTICE IS HEREBY GIVEN that all persons having claims upon the Estate of the above named Edward Hoffman, who died on the 10th day of September, 1930, are required to file with the Solicitor for the Executors by the fifth day of December, 1930, a full statement duly verified of their claims and of any securities held by them, and that after that date the Executors will distribute the assets of the deceased among the parties entitled thereto having regard only to the claims of which notice has been so filed or which shall have been brought to their knowledge.

DATED at Stony Plain this 17th day of October, 1930.  
JAS. MALLOCH,  
Solicitor for the Executors.

## Kitchen Girl WANTED.

Christie's Restaurant.

## CANADIAN NATIONAL RAILWAYS

Announce the withdrawal of TRAINS No. 5 and 6 between

Edmonton and Jasper for the Winter Season.

Effective Sunday, Nov. 2d.

Last train No. 5 leaves Edmonton Friday, October 31st.

Last train No. 6 arrives Edmonton Friday, October 31st.

TRAINS NO. 1 and 2 will perform same local trips as TRAINS NO. 5 and 6

## Muir Lake Community.

A meeting of members of Muir Lake Community League was held in their hall Tuesday evening, to discuss the coming season's activities.

It was proposed to hold an entertainment and dance on the evening of Nov. 10 (Armistice day), this to be for the members only.

The matter of having religious services in the Hall on Sundays has been under consideration by some of the members, and the opening service will be held Sunday next at 7:30 p.m. There will be a school for children, commencing at 11 a.m.

## Bright Bank Briefs

Threshing is in progress again, since the snow has disappeared. One week of good weather will see all threshing finished for this fall.

Mr James Young lost his flock of sixty turkeys during the recent snow storm. He cannot account for their disappearance.

Mr Max Bowser is at present in Royal Alex hospital recovering from an operation.

It is said that during the recent snow storm wild ducks were so stupefied, they could be caught with a 20 foot pole with a noose at the end of it. One sportsman up Carvel way tried to do it with a 15 foot pole but had to go waist deep in water to get his duck.

Julius Clausen is getting ready to start work on Mr. R. Howat's implement shed at Carvel.

Karl Grosskopf has purchased a sawmill and planer, and intends going into the mill business good and hard this coming winter. One setting he figures will run about 300,000 ft. See Karl early, if you want cheap lumber.

## Holborn Happenings.

A record crowd for this district was present yesterday at the auction on the Larson farm; Mr Washburn getting fairly good prices for everything offered.

Closely following on yesterday's big auction here, comes another big one, this one to be held by Mr and Mrs R Washburn, who intend moving back to Nebraska, at the close of the sale.

Threshing was resumed here this week, and will shortly be drawing to a close.

A delightful gathering of residents of the district met in the Hall Monday night, to bid farewell to two families which are leaving the district; these are that of Mr and Mrs R Larson and Mr and Mrs John Kewley. A very pleasant time was enjoyed by all. Each of the couples were given a handsome present, as a reminder of their stay in the Holborn district. Suitable replies were made.

Another good crowd gathered last Friday evening when the local branch of U.F.W.A gave their notice. A goodly assemblage of dancers were present, but the number in costume hardly went over the half dozen mark. Those who won prizes—Ladies, Miss L Williams 1, Mrs A J Anderson 2, Mrs George Spike 3 Gents, A J Anderson 1, Geo Spike 2, Harry Williams 3.

## Members Want to Know.

At the meeting on Saturday night of the Chair-Warmers' Club a member drew attention to the fact that barbers at Sparta, Wis. had agreed to cut hair for wheat. For one bushel of wheat any farmer there can obtain an artistic haircut. The decision to accept wheat instead of money was reached at a meeting of all Spartan barbers at which the present plight of the agricultural industry was discussed.

Another member said that a trade such as that might be all right for barbers across the line; but when No. 3 Northern is selling for 45c a bu. in Stony, a farmer wanting a haircut would have to give a bushel of grain and also a nickel for a 4-bit hair trim.

Another Chair Warmer asked how it was that when barley was quoted at 16c a bu. (3 lbs for 1c) a farmer had to pay 2c an oz. for his beer. retail. A committee will investigate this.

## Brightening License Plates

Convenient black and white license plates for automobiles have been widely used in many provinces of the Dominion from year to year, and it has been claimed that black and white is the best combination for legibility. Next year, however, after trying black and white for 1930 license plates and for other previous years as well, the province of Ontario intends to introduce markers a little more colorful. Black numbers on a background of old gold is the combination chosen by the Minister of Highways for 1931.

## AUCTION SALE BILLS

WE'VE GOT UP AND PRINTED  
AND ADVERTISING,  
TOO, ARE ESSENTIAL IF YOU WISH  
YOUR SALE TO BE A SUCCESS.

The STONY PLAIN ZUN

## THE SERVICE GARAGE.

We have an important announcement to make to our many Friends and Patrons, which we believe will prove interesting and at the same time, beneficial to all. On and after November 1st, 1930, we are going on a strictly Cash Basis. All Parts, Accessories, Gas, Oil and Grease and Labor will be sold for Cash only. We feel that by doing business on this basis we will be enabled to buy your requirements cheaper, thereby passing on the benefits to our Customers.

We are convinced that a distinct saving will be provided for you, and feel sure that this partnership between us will prove advantageous to all.

This plan does not include the purchase of New or Used Cars. We have a very liberal offer to make on Cars whereby they can be purchased on a deferred payment plan.

Call in and let us tell you about it.

## Bring Home Superb Heads

The hunting season is in full swing in the Province of Quebec. In the middle of October a party of three Nimrod left the Gray Rocks Inn, St. Jovite, Que., and took a hydroplane trip into the north to investigate moose hunting prospects. They got a big surprise and one of the highlight moments of their career as hunters of big game. One of the party bagged a moose with the magnificent spread of 66 1/2 inches; another of them shot a 60 1/2 inch head and the third also got a trophy which though smaller than either of the other two, would have ranked high in any average moose hunt. They report that

the section is unusually well stocked with the big animals. The object of the party was to get quickly into the north to spy out the land and come back later for the real hunting with all its pleasurable hardships of portaging, camping out, canoeing one's way through unknown or almost unknown territory and ending up by pitting one's brains and experience against the instinct, sagacity and wariness of the moose. They have returned to tell us of a Moose for hunters of moose in the North. Lay-out shows the great moose-spread with hydroplane in background, and Tom Wheeler, proprietor of the Gray Rocks Inn, with guide.
